FINANCIAL AND COMMERCIAL.

TBURSDAY, Dec. 12-6 P. M. There has been a further sharp decline in the gold market to-day. The opening transactions were at 134% a 134%, following which there was a steady pressure to sell, which carried the price down to 133, a lower point than has been touched since last April, when there was a fail to 132%; but in the meantine sale; have been ade as high as 145%. A reaction to 133% succeeded, made as high as 145%. A reaction to the adjournment of and the closing quotation, prior to the adjournment of the board, was 133%. Afterwards, however, there was renowed hammering on the part of the speculators, al-of whom are bears, and a relapse to 133% a 133%, fol. towed by a recovery to 153% a 183%, took place.
The market is enormously oversold, and
the borrowing demand for coin is very
active. Loans were made without interest and at 1.04 per cent per diem in favor of the lender, although more cent, were paid. Importers and others with large stocks of foreign goods on hand are becoming appreheneive of the consequences of this heavy decline, which is as much owing to speculative as legitimate influences, ower range of the premium really strengthen the opposite view of the case. It never rains but it pours

a the gold room, however.

The fact that the Treasury will have to disburse abou the payment to Russia of the Alaska purchase money, is of itself calculated to advance the promium, pondingly reduced. The items composing the thirty millions referred to are the principal of the loan of 547, maturing on the 1st of January, \$6,670,000, toon \$282,731,550 of the sixes of 1881, \$8,481,946; the \$14,692,830, and the interest on \$27,022,000 five per cents of 1871-74 \$675,550. It is not desirable, so far as the interests of our trade and commerce are concerned, that the gold premium abould continue to decline; but, poires is stability in the standard of values, and as the ares the better. Gold was selling at 145 not many weeks ago, and now it is below 134, and imported goods have de-preciated in specie value accordingly. This would not se a matter of such serious consequence to the people at argo if the course of the promium was to be steadily downward; but there is no probability of this being the case. It will rise and fall alternately, and its fluctua-Sons will unsettle trade and benefit none but specula-ors. With respect to the coin reserve of the Treasury and sales of gold by the Secretary, it is to be heped that define his duties strictly in every important particular. The fullest publicity should be given to all the transactions e Treasury, and especially such as are in any way eleted to affect the money market, by causing a ant of it. The policy of the government should be to heard as much coin as it can, for the larger its specie reserve is the stronger will be the public faith to govern-

terals are made freely at seven per cent, while first per cent; and this applies especially to the leading deal-ars in government securities. The banks are discount-ing the best grade of commercial paper for their cus-temers at seven per cent, while on the street it passes more readily than it did last week at 7% a 9 per cent. be about equal to the remittances.

At the commencement of business the stock ma as firm, notwithstanding the dulness occasioned by the new storm, and at the early session of the open board sloss were a fraction higher than at the close last

wening, Northwestern common excepted, which de-imed on the call, under large sales, from 59 to 58 %. It the first regular board the market was firm, but uset, except for Erie, which was active and advanced see o'clock, the market was firm, but dult. At the second segular board it was dull, and the speculative feeling was tame. New York Central closed & lower than at the first regular board, Erie &. Cleveland and Pittsburg was & higher, Rock Island &, Northwestern &, Pacific Tail 1. Government securities were dull. Coapon we-twenties of 1862 closed % lower. As the open board at bail-past three the market was

steady in tone, but dull, and Erie was 1/2 lower. Subsequently it became strong, although the stormy weather York Central Company is giving an impetus to the fermer, the understanding being that traffic arrangements will soon be made between the Erie, the New York Central and the Pennsylvania Central Companies cernings. At the same time the knowledge that the New York Central, the Hudson River and the Harlem are now practically under the manage-ment of one man gives confidence in the value of the socks of these roads and Erie, which last, it is supposed, will be worked in the Vanderbilt interest. At the close the market was strong at the following quota-7834; Reading, 95 a 9514; Michigan Southern, 81% a E; Cleveland and Pittsburg, 8514 a 8334; Rock Island, 80% a 97; Fort Wayne, 99% a 99%; Northwestern, 55% a 58; do. preferred, 67 a 67%; Pacide, Mail, 125% a

The foreign exchange market was quiet but firm, and the drawing rates for sterilog were advanced a fraction. The bankers are anticipating a considerable shipment of coin on Saturday is addition to the \$600,000 taken by the Gunarder on Wednesday and \$143,500 by the shanner Wessel to day. and \$143,500 by the steamer Weser to-day. The low price of gold is inducing purchases for remittance to Enrope to a moderate extent. At the close of business the rates were as subjoined :- Bankers' bills on England

as surty days, 110; at three days, 110% a 110%; commoraid bills, 105% a 109%; bills on Paris at sixty days, & 16% a 5.14%.

Government securities were depressed by the further decline in gold, and there' was a very light business transacted at the counters of the leading dealers. At the close the following sere the quotations mominally current:—Registered, 1881, 107% a 107%; coupon, 1881, 211% a 111%; 5-20's, registered, 1862, 116% a 116%; 5-20's, coupon, do., 100% a 107%; do., 1864, 104% a 104%; do., 1865, 104% a 105; do., 1865, January and July, 1978; a 107%; do., 1867, 107% a 107%; 10.40's, registered, 100% a 100%; 10-40's, coupon, 100% a 101%; June 7.30's, 104% a 104%; July 7.30's, 104% a 105%; June 7.30's, 104% a 105%; July 7.30's, 104% a 105%; June 7.30's, 104% a 105%; July a 119%; Kay do., 1865, 117% a 187%; August do., 116% a 116%; September do., 115% a 116; October do., 115% a 115%.

2805, 117% a 177%; August do., 116%; a 116%; September do., 115% a 116; October do., 115% a 115%.

A full meeting of the bondbolders and stockholders of the Southwest Pacific and Atlantic and Pacific Reliroad Companies was held at their offices, No. 54 William street, on Wednesday, and Mesars. Benjamin E. Bateg, President of the Sank of Commerce of Boston; Charles H. Dabney, of Dabney, Norgan & Co., and William A. Stephens, of Ward & Co., were appointed a committee to arrange with the State of Missouri for the surrender to arrange with the State of Missouri for the surrender to the Atlantic and Pacific Railroad Company of that part of their road recently seized by her authorities, and to complete arrangements for immediate and energetic work on the construction of the Missouri division of the

An important opinion was delivered by Mr. Justice Ingraham, at Supreme Court, Chambers, on Tuesday, in the case of Pitt Cooke vs. the National Bank of Boston, in which he held that national banks located in other States or counties may be seed in the courts of this State, and that a national bank organized under the act of Congress is a foreign corporation within the meaning of the statutes of New York, and may be proceeded
